

# Wind Industry *TRAINING IN ACTION*

**To Sign Up!**  
**Contact: Brian Bailey**  
**(575) 461-4413 x 123**

## **WET 101 (Online) – August 12, 2021**

Intro to Wind Energy

This exploratory course helps expose students to three sources of renewable energy: Wind, Solar, and biofuels. Working with solar, thermal, chemical and mechanical sources of clean energy

## **WET 106 (Online) – August 12, 2021**

Electrical Theory for Renewable Energy

This course builds on the foundation of WET 101 nuclear power, Steam generation, fuel cells, geothermal power, water power, AC/DC power generation, heat transfer and the laws of Thermodynamics. Students will engage in a variety of hands on simulation projects with local access to the R9 Wind Energy Mobile Lab Trailer!

## **WET 140 – October 15, 16 & 22,23, 2021**

**LIVE IN TUCUMCARI, NM**

Tower Safety and Training

8:00am to 5:00pm • 1 Credit Hour Course

**This course will cover:**

- Steel Toed Work boots and Industry helmet provided for the climb
- Students who complete the course keep the boots and helmet.

**CLIMB HIGHER**
